

Usage of JIRA Software

Date	4 November 2022
Team ID	PNT2022TMID47686
Project Name	Project-AI based localization and classification of skin disease with erythema

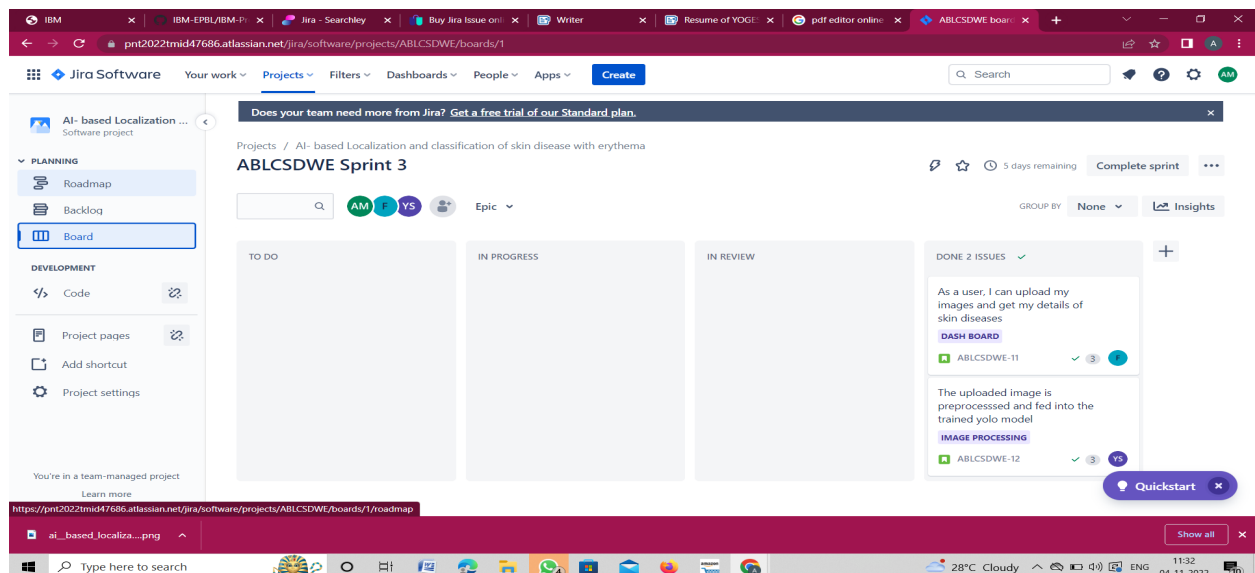

Creating the issue (Backlog) for the project

The screenshot displays the Jira Software interface for a project named "AI-based Localization and classification of skin disease with erythema". The interface is viewed from the "Backlog" tab. The left sidebar shows the project structure with "PLANNING" (Roadmap, Backlog, Board) and "DEVELOPMENT" (Code, Project pages, Add shortcut, Project settings). The main area shows the "Backlog" with a search bar and filters. Two sprints are visible: "ABLCSDWE Sprint 3" (7 Nov - 12 Nov, 2 issues) and "ABLCSDWE Sprint 4" (Add dates, 0 issues). The first sprint contains two issues: "ABLCSDWE-11" (As a user, I can upload my images and get my details of skin diseases) and "ABLCSDWE-12" (The uploaded image is preprocessed and fed into the trained yolo model). Both issues are marked as "DONE" and have a status of "1". The second sprint is currently empty. A "Quickstart" button is visible in the bottom right corner. The browser's address bar shows the URL "pnt2022tmid47686.atlassian.net/jira/software/projects/ABLCSDWE/boards/1/backlog". The Windows taskbar at the bottom shows the system clock as 11:31 on 04-11-2022.
